

Aditya Arul Manalan

UI/UX Designer | Product Designer

India | +916362929838 | aditya.arulmanalan@gmail.com

Portfolio Link : <https://adityaarulmanalan.netlify.app/>

UI/UX designer focused on creating clean, intuitive, and visually engaging digital experiences. Skilled in user research, wireframing, prototyping, and responsive interface design using Figma and front-end technologies. Passionate about simplifying complex user flows and building modern, user-centered products.

TECHNICAL SKILLS

- Figma
- UI Design
- Wireframing
- Responsive Design
- Web Design
- Typography
- HTML/CSS
- Visual Design
- Prototyping
- Layout Design
- Color Theory
- UX Research
- Design Thinking
- Mobile Design
- Problem Solving
- Blender

EXPERIENCE

Cherry+ Network, SRMIST Student Club — UI/UX Manager

May 2026 - Present

- Leading the UI/UX team in designing digital assets and interface concepts for club initiatives.
- Established a shared component library and visual style guide that cut design inconsistency across team deliverables.

Cherry+ Network, SRMIST Student Club — UI/UX Intern

Sept 2025 - April 2026

- Created UI mockups and website designs for student-led projects and events.
- Contributed wireframes and high-fidelity layouts for 3 club events, shortening design-to-handoff time by removing ambiguous briefs.
- Contributed to collaborative design discussions and project ideation.

PERSONAL PROJECTS

IMDb Redesign — Desktop Web Concept

~ 5 Weeks

- Audited 8 key IMDb page templates, identified 12+ inconsistent interaction and spacing patterns, and redesigned them into a unified component system.
- Standardized card hierarchies and layout spacing using a unified dark-mode style.
- Designed clean desktop mockups in Figma to optimize scannability and reduce user cognitive load.

PingMyRoom — App Idea & Concept

~ 3 Weeks

- Designed a 0→1 mobile utility app from problem framing to high-fidelity prototype, reducing the hostel cleaning request flow to a single tap with live status tracking.
- Built a speed-first interface with a one-tap CTA and a visual status tracker.
- Structured issue reporting into simple categories to eliminate long text forms.

Coffee House — Desktop E-Commerce Concept

~ 4 Weeks

- Designed high-fidelity desktop screens and wireframes across 6 core user pages.
- Introduced a "Like" micro-interaction that separates browsing intent from purchase commitment, addressing a documented UX pattern that reduces cart abandonment in e-commerce.
- Developed a warm, coffee-inspired visual identity to lower decision fatigue and improve discovery

EDUCATION

SRM Institute of Science and Technology — Electronics and Computer Engineering

June 2025 - May 2029

- Academic Standing: Current CGPA of 9.56 (First semester results; second semester pending release).
- Focus: Combining hardware engineering fundamentals with software and interface development.
